

Annual Meeting of Delia School District

The annual meeting of taxpayers of the Delia School District was held on Monday afternoon, at 2 p.m. As is usual, there were very few of the public in attendance.

Receipts for the year 1938 totaled \$7,377.70, which included \$3,395.08 municipal and \$3,982.62 arrears of rates; pupils' fees, \$465.00, and government grant, \$1,862.00.

Total cash payments amounted to \$7,377.85, included in which were teachers' salaries, \$5,750.00; janitor's payment, \$1,455.00; janitor's salary, \$450.00; bank loan repaid, \$650.00.

Unvoted arrears of taxes stand at \$24,751.65, and arrears of fees for tax-payers, \$705.00.

1937 tax levy was 15 mills, estimated to produce \$5,792.00.

It was moved by W. B. Dunlop that Dr. F. J. Nicholson take the chair. The motion carried, and the meeting opened with the presentation of the report of the Delia School District for the coming season. It is also expected that short course of instruction in the use of the projector and the use of the projector will be given at various points throughout the province.

Yours very truly,
J. B. WILKIN,
Minister of Agriculture.

Government Will Distribute Vaccine

In consequence of some remarks made by the provincial minister of agriculture, at a recent meeting of the Neutral Hills Livestock Association, it is reported to livestock men here, the executive of the Delia Agricultural Improvement Association instructed its secretary to write the Hon. D. M. Mulloy for information, the following reply has been received:

Edmonton, Alberta,
January 9, 1939.

Secretary-Treasurer, A. J. Delia, Alberta.

Dear Sir,

Replying to your letter of the 7th instant, I wish to advise that arrangements are now under way in connection with the distribution of Echinovaccinia vaccine for the coming season. It is also expected that short course of instruction in the use of the projector and the use of the projector will be given at various points throughout the province.

Yours very truly,
J. B. WILKIN,
Minister of Agriculture.

Racial Origins of Canada's Population

The proportion of foreign born Canadian citizens, as compared with British and French, in the Dominion is sometimes a matter for speculation, and a reference to the census returns compiled by the Bureau of Statistics is the only satisfactory method by which any argument can be made.

The Dominion census, last taken in 1931, gives a total of 10,376,788 persons. Of these, 5,381,071 were British and 2,927,990 of French origin. Together, the British and French groups constituted 80 per cent of the total population. Foreigners comprised the balance of 20 per cent, and of these, 1,230,342 were the Germans, with a total of 473,554.

A census taker held that, next to the French, Scottish citizens formed the largest proportion of Dominion population is disproved by analysis of the figures, for the whole of British total, 2,741,419 are British; the Scots, 1,346,250; Irish, 1,280,828, and others which presumably include Welsh, Manx, etc., 62,484.

The geographical origins of the three principal provinces, taken in 1930, gave a total population of 1,445,445, of which 812,000 were of British origin, or 49.2 per cent of the total, and of these 1,230,342 were the Germans, with a total of 473,554.

Final census—Delia S. Michichi 3, L. E. Larder was referee.

Canada Vineyards Prosper

The 1930 report issued by wine growers of the province indicates that today the Canadian wine manufacturers enjoy the six times the business of the previous year. The report, issued by the Canadian Vineyard Industry Limited, Gerald Calder points out that there are approximately 18,000 acres of grapes under cultivation in Canada, and 90 per cent of the total vineyard area is in the three counties of Wetland, Lincoln and Westmorland on the Niagara Peninsula, with about 12,000 acres of grapes being used by the wine industry. The total vineyard area in 1930 was 18,000 acres, and 90 per cent of the total vineyard area is in the three counties of Wetland, Lincoln and Westmorland on the Niagara Peninsula, with about 12,000 acres of grapes being used by the wine industry.

Flour Mills in Canada

There are 40 flour mills in Canada, with a total 24,000 capacity of 100,000 bushels. Thirty-five per cent of these mills are located in Ontario, twenty in Alberta and 15 in British Columbia.

SPARROW POISONING

Experimental Farm Weekly Letter

In considering the numerous pests which beset agriculture today, we must not overlook the little sparrow. When a few of them are present, no apparent damage occurs and they are generally chased away with the other desirable class of birds that we all like to see around our place.

However, on too many farms, especially those with a good supply of feed, the sparrow becomes a pest. It is not only the damage it does to the crops, but the damage it does to the birds that it kills. It is not only the damage it does to the crops, but the damage it does to the birds that it kills.

HOCKEY

Delia vs. Michichi

On Wednesday night a game was played between the Delia and Michichi hockey teams. The game was a close one, with the Delia team leading for most of the game. The final score was Delia 3, Michichi 2.

Delia vs. Michichi

On Friday evening, January 6, a hockey team consisting partly of Delia High School boys journeyed to Hanna and played the Hanna High School team. The game had a story book quality, as the home team were down 4-0 going into the third period. Final score - 6-4, in favor of Delia.

Line-up of Delia team—Crosby; Larder; Puffer; Curtis; Ring; Edwards; Sule; Larder, Thompson, Fleisher; Moore.

A return game was played by the above on Friday night. These two teams are about evenly matched as a rule, but apparently Hanna had an edge on tonight's game. The final score was 6-4, in favor of Delia.

The Flag Of France

Why The French Tricolor Still Flies In Quebec

Why does the French Tricolor fly from many masts in the Province of Quebec? This is a question that is frequently put to guides and informants by tourists who visit the States visited by French-Canadians.

Many French-Canadians seem to have had many tourists to believe that French-Canadians imagine they have some kind of political or sentimental attachment to the flag of France and occasionally to the flag of the French Republic.

French-Canadians wanted none of it. The French flag was not the flag of the French Republic.

French-Canadians wanted none of it. The French flag was not the flag of the French Republic.

In July, 1952, the British-Admiral allowed a French-Canadian to "La Capricieuse", to penetrate the French-Canadian territory.

That is how it comes about that the flag of the French Republic is introduced by the English is still there in the Province of Quebec.

It is a matter of feeling. It is a matter of feeling. It is a matter of feeling.

Credit For China

Expected Britain Will Make Loan For Building Of Highway

It is expected that Britain will make a loan of £500,000 (\$2,538,125) for the building of a highway.

The credit will be advanced as soon as a government bill creating a loan of £500,000 (\$2,538,125) is passed.

Having filled in protests to Japan, Great Britain now intends to give more assistance to China and attempt to establish a trade mission.
